
Double board bomb pots, solved.

Bomb Pot Solver is a browser-based solver and trainer for double board bomb pots, in No Limit Hold'em and Pot Limit Omaha, two to nine handed. Players study a library of 450+ solved spots, play full hands against solved opponents with every decision graded in big blinds, and run custom solves of their own spots.

WHAT IT IS	A solver, trainer and study tool for double board bomb pots. Runs in the browser, nothing to install; installs as an app on phones.
GAMES	No Limit Hold'em and Pot Limit Omaha (4-card). Custom PLO5 and PLO6 solves, 2 to 6 players.
TABLE SIZES	2 to 6 players in the library; 7 to 9 players as custom solves on Elite.
LIBRARY	450+ unique solved NLHE and PLO double board bomb pots, flop to river, both boards. Every solve ships with a measured exploitability score.
REAL GAME SETTINGS	Solved at CoinPoker's actual 5% rake and random 2 to 4 bb antes, checked against real hand histories.
TRAINER	Play full hands against solved opponents. Every decision is graded by the EV it cost, in big blinds. Net vs EV shows whether a hand ran bad or was played badly.
STUDY	Strategy for every hand at every node, every seat's range, exact-combo analysis for your own cards, blockers, and library-wide reports.
YOUR HANDS	Paste or import CoinPoker hand histories and get every decision graded against the solution.
LEARNING	A 41-lesson course (Double Board Bomb Pots, Solved; Module 1 free), a free six-lesson primer, and a Daily Spot that gives every player the same hard decision each day.
FREE TOOLS	A free double board equity calculator on the site, with a field sim mode.
PLANS	Free \$0 (10 trainer hands a day, sample solves). Library \$49/mo or \$39/mo billed yearly. Pro \$129/mo or \$99/mo billed yearly (custom solve credits). Elite \$249/mo or \$199/mo billed yearly (7 to 9 player solves, deep dives). All paid plans month to month.
NOT GAMBLING	Bomb Pot Solver is a study and training tool. No real-money play is offered or facilitated.
